Dear Colleagues,

Please, let me inform you about a very sad event. In past 15 days we have lost 5 brothers who were working in shipyard because of precarious and unsafe working conditions. Those were so-called occupational accidents; but let me say they are occupational murders. 5 workers were died in the past 15 days at Tuzla shipyard in İstanbul, where expensive ships and yachts are built.

In shipyards, there are almost no job safety and employers don't allow workers to organise in trade unions. Our affiliate Limter-İş (Union Of Port, Dock, Ship Building And Repair Workers), is facing with several serious obstacles.

Please find enclosed press statement. We believe that you will demonstrate the most efficient forms of international struggle of workers.

Yours Sincerely

Musa ÇAM

General Secretary
