from the meeting of the employees and attendants in Kremikovtzi AD

Dear gentlemen,

Two years and a half we have been listening promises and lies about the bright prospects of Kremikovtzi.

At the same time the paying of the wages and food is being deferred, there is a permanent shortage of personal preventives, working clothes and shoes, work conditions are getting worse and worse every day, conditions of life are getting more and more terrified.

A trade economic scheme, aimed at sacking the company, is established, which paralyses practically the functioning of the plant and all investment declarations are not being carried out.

Instead of implementing the “Vitality programme”, different conceptions and theses are being changed permanently, which leads to spreading of the spirits about closing of Kremikovtzi.

KNSB and Podkrepa all time are expressing to the owner and Government their disagreement with the policy carried on in the company.

Our opinion is- the owner Pramod Mittal is destroying Kremikovtzi!

We insist on the Government taking the necessary measures for **pushing aside Pramod Mittal**.

Pramod Mittal, the executive director Aleksandar Tomov and Board of managers appointed by the Government to control the implementation of the “Vitality programme” of Kremikovtzi **are guilty of the decay of the company and its grave condition.**

That’ s why the Kremikovtzi employees and attendants insist on their resignation and change of the owner and announce that if the Government does not cope with the problem till the end of the next month we will undertake protest actions in front of the Council of ministers!
