Re: Solidarity with the workers at Delphi in Ponte Sor (Portugal)

Dear Colleagues,

Announced the closure of the Delphi plant in Ponte Sor (Portugal) by summer 2009, that will affect several hundred workers in both direct and indirect employment, MCA-UGT wants to express its solidarity with Delphi worker's and their representatives.

MCA-UGT supports the struggle of our colleagues in Ponte Sor and wants to join to any protest actions organised by EMF. This is a situation that could affect to any country throughout Europe taking into account the Delphi's plan to sell off or close down production of non-core products in these countries.

From MCA-UGT we want to underline the necessity of raising this closures issue at the next Delphi EWC meeting and convene a European trade union coordination meeting by EMF to discuss the strategy to be taken.

We urge to Delphi management to enter into proper information and consultation procedures with the employee representatives in order to solve the situation of this closure at all levels.

In solidarity,

Rogelio Luis Mena Segura
Secretario Federal
Responsable Sector Automoción

Javier Urbina Sánchez-Guerrero
Responsable Gabinete Internacional
