ELECTROLUX: 8 HOURS OF GENERAL STRIKE OF THE GROUP FRIDAY 4TH OF APRIL WITH A NATIONAL DEMONSTRATION

Fim-Fiom-Uilm and the coordination of RSU (company representatives), in their meeting in Mestre the 11 of March 2008, decided to go on general strike of all Electrolux group in Italy, Friday 4th April 2008 with a national demonstration in Florence.

TO SUPPORT THE DISPUTE OPENED WITH ELECTROLUX GROUP AND TO ASK:

Not to close the plant of Florence and any other site in Italy

To be disposable to change their intention till now oriented towards the reorganization of the cold production in Italy and in which intention we expect the heavy reduction of Susegana.

To be available at a real confrontation on the industrial strategies of the group in Italy and in Europe, on development and research, on the production and on the market to reach an agreement able to strengthen the presence of the multinational in our country.

FIM-FIOM-UILM and the National coordination of RSU will promote assemblies of workers in all the plants to discuss with them and organize the participation in the national demonstration in Florence.

FIM-FIOM-UILM consider the Electrolux strategy more oriented to the financial side than the industrial. They think we need investments in the innovation in all the bands of products, we need an organization not mainly oriented in the reduction of costs but in the increase of quality of products and working conditions.

FIM-FIOM-UILM and the National coordination of RSU invite all the workers to participate in the demonstration. Only a big participation can change the Electrolux mind and can help to find an agreement that can keep the workplaces and the industrial production of Electrolux in Italy.
