**Re: Solidarity with workers in Arcelor-Mittal Gandrange**

**Dear colleagues,**

From the Metal, Construction, Building and Allied Workers' Federation (MCA-UGT), we would like to express our solidarity with the French workers in Gandrange Arcelor-Mittal plant and the trade unions representatives that are struggling to safeguard the employment.

We support the actions planned by the French workers and their union representatives with the demonstration to be held at Gandrange next Saturday, February 9<sup>th</sup>. We defend the same aims of our colleagues there, which are fighting for keeping their jobs, against the Arcelor-Mittal management's unilateral decision. This measure would affect on the workers, their families and the region. So we would like to encourage them to keep fighting until getting a solution to the situation.

In Solidarity,

**Javier Urbina Sánchez-Guerrero  
International Department Reponsible**
