Dear French Colleagues and Workers,

We in the Czech Republic are closely following your effort and fight for maintaining the production and jobs in Gandrange ArcelorMittal. In this way we would like to express to you our full support and our believe that your demonstration on February 9, 2008 will be successful and will contribute to success and solution of your legal requests towards ArcelorMittal management.

Thanks to your information and also presence of our representatives in SC EWC ArcelorMittal we are very well informed about the whole situation and we understand your effort to maintain the production and jobs for employees. We had to face similar experience and processes in the ArcelorMittal Group, which declares to be the best in the world in the given branch. We should not allow mass job and production reductions! Today it concerns you and tomorrow it can concern us!

That is why once more accept our full solidarity. You will get our support also next week during the SC EWC ArcelorMittal meeting.

Your success will be also our success!

On behalf of OS KOVO Trade Union Council ArcelorMittal Czech Republic representatives:

**Luděk LÚČAN**  
SC EWC ArcelorMittal Member  
OS KOVO Czech Republic
