**Re:** Management interference in trade union organising at Bosal Group, Turkey.

*Dear Mr Geerts and Mr Turfanda,*

The EMF expresses its resentment with the role of local management of Bosal Group in Turkey, which is interfering with trade union organising at the plant. It is clear that local management is supporting Turk Metal in their efforts to get the majority of workers as members. It is unacceptable that a management is choosing their trade union.

The EMF asks management to stop this involvement immediately. If not, the EMF will from next days onwards initiate further actions on both European and international levels.

*Best regards,*

Peter Scherrer  
General Secretary
