email : bmt@eur.bosal.com

The FIM-CISL (Italian Metalworkers Federation) - on behalf of 200 mil members affiliated - expresses its resentment with the role of local management of Bosal Group in Turkey, which is interfering with trade union organizing at the plant. It becomes now clearer and clearer that local management is supporting Turk Metal in their efforts to get the majority of workers as members. It is unacceptable that a management is choosing their trade union.

The FIM-CISL asks management to stop this involvement immediately and asks its affiliates to support the workers at Bosal.

Kind regards.

Gianni Alioti

Head of FIM-CISL' International Office
