Madrid, on April 7<sup>th</sup> 2008

From the Metal, Construction, Building and Allied Workers Federation (MCA-UGT), which covers 180.000 members in Spain, we want to express our resentment with the role of the local management of Bosal Group in Turkey, which is interfering with trade union organizing at the plant. It becomes now clearer that local management is supporting Turk Metal in their efforts to get the majority of workers as members. We can't accept that a management is choosing their trade union.

We urge the management to give up this involvement immediately and ask its affiliates to support the workers at Bosal.

Javier Urbina Sánchez-Guerrero  
Head of International Department  
MCA-UGT
