Re: **Solidarity with the workers at Bosal Group, Turkey**

The Czech Metalworkers' Federation (OS KOVO) express its concerns linked with the fact that the local management of the Bosal Group in Turkey is interfering into the trade union matters at company level.

It is the right of individual workers to choose freely the Trade Union Organisation/Federation at any existing level in the respective country. These basic rights about Freedom of Association and Collective Bargaining are anchored in the ILO Conventions.

OS KOVO appeals to the management to stop to interfere in the trade union matters.

In solidarity,

Josef Středula
OS KOVO President
